**Response to the Commission's question Regarding Section 2.1.1.5 of the application.**

**INFORMATION REQUESTED BY PSC:**

In the notes to the financial statements, the Company states it is obligated to make minimum annual payment targets to Pacific Summit Energy. The Company's minimum payment obligation for year three is projected to be short but able to be covered by the Company's cash on hand. The Company states that it is currently in negotiations to amend the payment schedule for the year three balance. Please provide the Commission with an update on the contract extension arrangements and please explain the effect this has on the Company's ability to provide service on an on-going basis.

**MINT ENERGY RESPONSE:**

Mint has paid the minimum obligation due under the agreement without extension of the payment schedule, and therefore there will be no impact on the Company's on-going ability to provide service to its customers.
